

ASSEMBLY HAS DECIDED BILL

By Vote Of Fifty-Three To Thirty-Six Decide Against Stout Plan For Enlarged Park System.

PAINT MANUFACTURERS' VICTORY

Bill Which Would Have Compelled Them To Publish Their Formula, Is Dealt Sudden Death By Close Vote This Morning.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 20.—By a vote of fifty-three to thirty-six the assembly put a quietus to the Stout bill which would have authorized the governor and a commission to investigate and report on the proposition of enlarging the Capitol park by buying some three million dollars worth of adjacent property.

Took Six O'clocks.
The Stout project, if passed, would have included the purchase of six blocks to the east and south of the Capitol park. It would have included all the business property on Main street for two blocks, from Carroll to the Pinkney, and extended as far as the railroad tracks. The main approach was to have been Mount Vernon and many of the old residences of the city would have been erected buildings.

Tried Defeat.
This bill, however, was tried at the last session of the legislature but was rejected at that time. Several of the most important business blocks in the city, a hotel, the Elks' club, and many of the old residences of the city would have to have been torn down if it had become a law. It was bitterly

LENROOT RADICAL IN HIS SPEECHES

Congressman From Superior Had Rather See House Democratic Than Ruled by Cannon.
[SPECIAL TO THE GAZETTE.]
Superior, Wis., May 20.—Congressman Irvine L. Lenroot says that if the Payne tariff bill comes back to the house in the form that it now seems probable that the senate will write it, he will vote against the measure if he is the only republican in the lower house to do so. The congressman left last evening for Washington to be on hand when the bill returns to the house and he says he fully expects to see the senate send it in with a total tax heavier than the Dingley bill. The Payne bill was voted for by Lenroot, who is one of the insurgent leaders, because he considered it an improvement on the Dingley schedule, although not satisfactory to him in many details. He believes enough insurgents will vote against the Dingley bill to beat it but Mr. Lenroot predicts that the democrats will fall to its lot.

In an address at a Lenroot meeting before he left Mr. Lenroot made the statement that he would rather see a democratic house under the speakership of Champ Clark than a republican house under the speakership of Cannon.

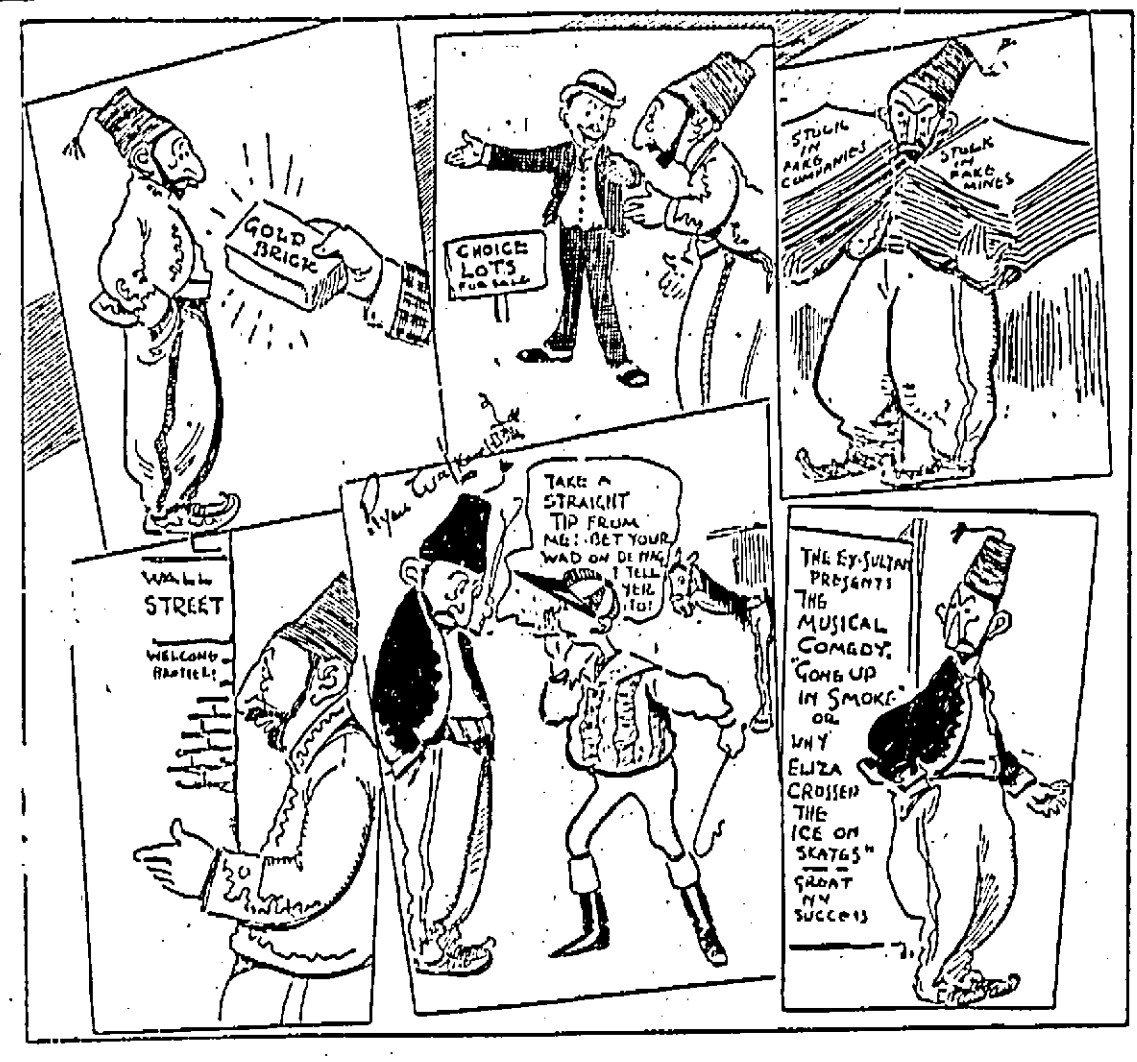

Douglas county La Follette men intend to inject a little ginger into the state senatorial campaign early in the game. At a well attended meeting of party war horse that have for years fought the battle of La Follette in this county it was unanimously voted that everybody get busy at once to advertise the fact that a determined effort will be made to defeat the senior senator. It is figured here that it is simply a question of getting the voters of the state awake to the fact that a hard fight will be made. It is expected that there will not be much financial backing for the La Follette campaign but his hosts here hope that an early start will effect any advantage that a candidate with more means behind him will obtain.

Milwaukee Balloonists Take Second Trip In New Balloon "Pabst"
Conditions Favorable.
[SPECIAL TO THE GAZETTE.]
Milwaukee, Wis., May 20.—The second ascension of the balloon "Pabst" of the Milwaukee Aerial Club will be made this afternoon. As the weather conditions are unusually favorable it is believed this trip will be even more successful than the other one. The occupants of the balloon will be: Mr. J. H. Horsey, Prof. Warren S. Johnson and E. P. Vilas.

HOPKINS HAS GAIN IN BALLOTING TODAY

[BY ASSOCIATED PRESS.]
Springfield, Ill., May 20.—The nineteenth joint ballot for United States Senator today resulted as follows: Hopkins, 87; Foss, 10; Mason, 2; Burdett, 10; Stetson, 32; Webb (Chicago), 32; scattering, 15. Four senators and five representatives, all except one who have been voting for Foss, switched to Hopkins today.

EXEMPTION OF DEBT NOT TO BE CHANGED

Present Law Will Continue in Force—Senate Decided This Important Matter Last Night.
[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 20.—The present law with respect to exemption from execution for debt will remain unchanged by the present legislature. The assembly last night killed beyond the possibility of resurrection the bill of Senator Lyons to remove from exemption ten per cent of a debtor's wages. This present law exempts \$50 of wages and also exempts certain amounts for a laborer's tools and the libraries and instruments of professional men. The bill passed the senate and came up in the assembly last night, a debate ensuing in which Assemblymen Hughes and Kull favored the bill and Assemblyman George, Hanchbrecht, Ingalls and Hurdett spoke in opposition. The bill was defeated by a vote of 16 to 27 and reconsideration of this vote was refused by 25 to 28. The chief argument in favor of the bill was that delinquent debtors systematically take advantage of the exemption law to defraud creditors. The opposition argued that such a law would be in the interest of loan sharks and careless merchants who would be able to harass the poor and unfortunate, tie up their wages and thereby pile up costs against the debtor for the sake of squeezing out the small margin that would be obtainable under the present exemption law. A purpose of \$5,000 in gold will be presented to the Pontiff in the name of the annual association.

SEES DANGER IN THE PLAN OF COMMISSION

Leader of the Anti-Saloon League Says Austin Bill Will Undo Much Valuable Legislation.
[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 20.—"The so-called Austin bill for a commission to revoke liquor licenses is an attempt to nullify some of the best laws that have been put on our statute books through years of labor," said John P. Baker, attorney for the anti-saloon league in a hearing before the committee on claims yesterday on the bill. The bill was recommended for passage by the state affairs committee on a vote of three to four and was sent to the committee on claims. Although the claims committee took no vote on the subject it is understood that it will be recommended for death by a vote of three to two.

UNIVERSITY HAS LITTLE TO FEAR

PLAN TO TAKE JURISDICTION OF ENTRANCE REQUIREMENTS WILL BE DEFEATED.
[SPECIAL TO THE GAZETTE.]
Washington, D. C., May 20.—The University of Wisconsin has been told by the federal government that it has no need to fear the plan to take jurisdiction of entrance requirements. The plan, which was introduced by the House of Representatives, would have given the federal government the right to set the standards for admission to the University of Wisconsin. The university has been told that it has no need to fear the plan, as it is already one of the best in the country.

Status Of Dr. Witherspoon, President of Princeton and Signer of Independence Document Unveiled.
[SPECIAL TO THE GAZETTE.]
Washington, D. C., May 20.—The memory of Dr. John Witherspoon, the famous Scotch divine who became president of Princeton College and was one of the signers of the Declaration of Independence, was honored this afternoon when a bronze likeness of him by William Calder, the New York sculptor, was unveiled in the New York square by the function of Connecticut avenue, 18th and N streets.

RELIEVES TENSION FOR STATE SENATE

Withdrawal From Committee of the Binding Twins Measure Relieved Call of the House.
[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 20.—The withdrawal of a resolution on claims from the joint committee on claims has relieved the tension in the senate. The resolution, which was introduced by the House, would have given the federal government the right to set the standards for admission to the University of Wisconsin. The senate has been told that it has no need to fear the plan, as it is already one of the best in the country.

ATLANTIC STEAMER STILL IN ICE FLOE

Mongolian is Still Surrounded But in No Danger Unless Wind Shifts.
(BY ASSOCIATED PRESS.)
St. Johns, N. F., May 20.—The steamer Mongolian bound from Liverpool was today still surrounded by the ice floe. The steamer Prospero, which went to assist the Mongolian yesterday, freed herself from the ice jam this afternoon. Unless the wind shift to the east the Mongolian and her 600 passengers are in no danger.

ZENE FISHER UNSCRATCHED IN ACCIDENT AT SAND HILL

Sand Caved in Partially Burying Him—Injuries Were Slight.

While at work at the sand hill of the Roberts & Fisher Sand company this morning, Zene Fisher, son of Grant U. Fisher, was the victim of a slight accident. Mr. Fisher was on the side of the hill pushing the sand down to the endless chain scoop which carries the material to the machine which screens the sand. The uniform foundation gave way with him and carried him down to the scoops which had scratched his right leg quite badly before the machinery was stopped. The slide with which he fell buried him up to the waist. At first his injuries were thought to be quite severe. He was taken to Dr. Sutherland's office and his wounds dressed.

much appreciated by numerous social organizations in the city. The leaders' Bible class of the association met last night with a full attendance.

SAYS FATHER WROTE 'WRONG' NAME IN MAKING OUT WILL

Manitowoc Man Claims Father Made Mistake in Making Out Document.
(SPECIAL TO THE GAZETTE.)
Manitowoc, May 20.—That his father, aged, weakened from illness, and while facing death, made a mistake and substituted the name of his brother in place of his own in his will, is the unique contention of Edward Hultanderhede, who is contesting the will in probate court. Hultanderhede is contesting a trusteeship of his father, to which his brother was named and in support of his claim, cites a will which was made by his father in 1907 and in which his brother, now deceased, was cut off with \$500. The estate is a small one. It is claimed by the contestant that his father and brother had been estranged for years.

AFTON.

Afton, May 20.—It. G. Conradt of Pardeeville, called on Afton friends last week. He was called to Marquette, Ill., by the death of his father, stopping over on his return. But Ole spent Sunday with his parents, returning to Chicago Monday morning.

The remains of Christian Gushart of Beaverton, Oregon, arrived here Tuesday, accompanied by the widow and Son, Christian Jr., the remains were conveyed from the depot to Passett cemetery where a prayer was read by Rev. Spillman. The body was tenderly laid to rest in the family lot.

Mr. Gushart was the first German to settle in this locality about fifty years ago. He moved to Beaver Dam about six years ago where he died at the age of 90 years.

Non-Polarizing Battery.

Electronate batteries are very expensive to maintain and dry cells do not furnish enough amperage for some kinds of experimental work. A coil of battery that will run ten hours with an output of over one ampere can be made as follows: Secure a jar about four inches in diameter and eight inches high and place in the bottom of this jar the lower half of a tin baking powder can, to which a wire has been soldered for connections. Place in the can a mixture of two ounces black oxide of copper, one ounce black oxide of manganese and some iron filings.

Purchase a small crowfoot zinc and hang it about one inch above the half can. Prepare a ten per cent. solution of caustic soda and fill the jar within one inch of the top. Place on top of the solution a thin layer of kerosene or paraffin. The cell will only cost about 50 cents to make and 25 cents for each renewal. When renewing, always remove the oil with a siphon.—Popular Mechanics.

New Use for the Wireless.

The Paris Academy of Sciences has appointed a committee to consider a suggestion by M. Bouquet de la Grye concerning the application of wireless telegraphy to the problem of determination of longitude at sea. The idea is to utilize the wireless telegraph station of the Eiffel tower in order to send, for instance, every night at midnight a horizontal signal giving the time of the meridian of Paris. M. Bouquet de la Grye thinks that if a station were established at the park station of Tenerife signals could be detected completely around the earth.

Use for Incandescent Light.

An incandescent lamp in its green shade will, when turned upward toward the ceiling, spread a soft and pleasantly diffused light plenty strong enough for a room where no reading is to be done. When the lamp is used in this way no shadows are cast.

Let the Crops Pay for Your Home in Sunny Southern Alberta

On Our New Guaranteed Crop-Payment Plan.
Don't delay to investigate or confuse this with ordinary land offers or speculative propositions. We want intelligent home-makers who will appreciate this chance to let us start their farming operations under contract or live settlers who are going to come here and join the thousands who are already engaged in building up this wonderful country.

In the Bow River Valley Reservation
If you can not come here at once, we will contract to break, cultivate and seed such parts of your land as you wish and start the crops so that your farm will be practically ready for you to take your cash profits from next crop season. Or you can buy for cash and lease your land to others on crop shares. You would then own your farm outright and benefit by the rapidly increasing values per acre.

Prices Per Acre Now Are the Lowest—Get Your Profit
Sunny Southern Alberta harvests the largest crops on the continent this year. Climate ideal for homes—Splendid transportation facilities—Good lands—Quick cash markets—Good schools, Churches and Neighbors, and permanent water supply, making good crops a certainty. On our new plan you practically become a partner of the Canadian Pacific Railway Co. (We've got to stand by you under our agreement and that's what we want to do. Pay out of your crops for your land—No Crops—No pay!—and more easily and quickly own clear title to a farm which will earn you more money for life than in any place else on this continent and make you independent. Write to-day for all facts—prices and Free Books to address below.

Which of These 5 Free Books Telling About Our Home-Making Plan in Sunny Southern Alberta Do You Want?

- No. 1, "FACTS"—This book is an encyclopedia of information on mixed farming, including live stock, dairying, etc., in Sunny Southern Alberta. It also includes complete details about our crop-payment plan.
- No. 2, "STAFF OF LIFE"—This is the story of the wonderful winter wheat production in Sunny Southern Alberta, which you will find most interesting and profitable to read.
- No. 3, "PUBLIC OPINION"—This book includes letters from present home-owners and home-makers in the Bow River Valley in Sunny Southern Alberta. You will find it most interesting and profitable reading. It contains facts which every man ought to consider both before and after he makes up his mind to take advantage of these opportunities.
- No. 4, "STARTING A FARM"—This book shows the advantages that a farm in the Bow River Valley in Sunny Southern Alberta offers to the city man as a place to raise his family and to make an independent fortune. It contains the facts regarding the actual cost of starting a farm, and gives you a very accurate idea of just how you can proceed at once, or in the near future, to get one of these farms for your own.
- No. 5, "ANIMAL HUSBANDRY"—This book tells the story of the unequal facilities presented in Southern Alberta for the development of the ideal diversified farm. Here live-stock feeding and dairy production on the rich alfalfa meadows is shown to lead to certain success.

"PHILADELPHIA" JACK O'BRIEN TRAINED OUTDOORS AT PHILADELPHIA FOR THE MATCH WITH JACK JOHNSON WEDNESDAY WHICH ENDED IN A DRAW

THE REAL SUMMER CAPITAL OF THE UNITED STATES Board of Trade rooms at Beverly, Mass., accepted by President Taft for his use this summer.

Beverly, Mass.—For the first time in the history of the United States, the president will occupy during the summer months as his official headquarters the rooms provided by the board of a municipality. The rooms are located on the second floor of one of the principal blocks of Beverly and consist of a suite of four rooms. The furniture is simple but will undoubtedly appeal to the democratic President Taft. The offer was made by the Beverly board of trade as soon as it was definitely announced that the President was to locate here for the summer. The offer has just been accepted by him and this summer will undoubtedly see him dictating letters and speeches to his stenographer in one of the rooms while Fred Carpenter, his private secretary, sits guard over the outer door quite as at Washington.

"A REASON AND A RESULT"

It's a common thing to hear the dental traveling men come into Dr. Richards' office and find him as busy as a man could be.

Say, "Well, Richards, I've been around to all the other dental offices today, and you are the only man I have found who is doing anything."

People are keeping him busy because he is doing

Painless work at a reasonable price. There are a few people who rather pay \$10.00 for gold crowns because possibly they think they are getting better value thereby.

But the fact remains that Dr. Richards is putting out hundreds of gold crowns at exactly \$5.00 each.

Which are identical in every respect.

Workmanship, quality of gold, etc., etc.

The only difference is in the amount of hot air the different dentists pump into you.

Try him yourself, and be convinced.

Game Slaughter in South Africa.

Game has become depleted in Africa from the ruthless slaughter engaged in by reckless hunters. One of these is said to have shot, for no useful purpose, 150 rhinoceroses, while a companion killed 140 more; when, very appropriately, the hunter was killed by a rhinoceros.

HOUSED IN BASEMENT OF THE HITCH BARN

Twenty-Four German Beet Sugar Workers, Crammed Miserable Night in Temporary Quarters.

It was a sorry lot of German beet sugar workers to be found in the basement of the East Side hitch barn this morning while they waited for some of the officials of the Rock County Sugar company to come and tell them where they were to go. According to the story that could be gleaned from them, they had left the cars which they had traveled from Cincinnati to Jamesville in, last evening, thinking they were to be taken to an hotel. Instead they were dumped into the basement of the hitch barn, which was until recently used for refuse purposes. Two families were crowded into two rooms in the Hermann block, eleven in all, and the other thirteen were forced to sleep either in the hallway, basement or on mattresses in the alley.

There were five families in basement, women, boys and girls, and little babies in arms and all were most anxious to find out where they were going and where they could get something warm to eat. Health Officer Buckmaster was notified and visited them, as did several prominent German residents of the city, and the officials of the sugar company were notified to take care of them at once.

This afternoon they were moved to some of the farms near the city where they will work in the beets during the summer, but if the wishes of the women had been listened to they would have gone back to Cincinnati. They had money with which to buy themselves food, but did not know where to get a warm meal and did not dare leave the basement, where their household goods were stored, to search for a dinner.

"START EARLIER," IS REQUEST OF CHIEF

Chief of Police Appleby Gives Warning to Autists Who Are Exceeding Speed Laws.

In a statement made at the police station this morning, Chief of Police Appleby signified his intentions of dealing severely with those who violated the law in regard to over-speeding their automobiles. "For humanity's sake, start earlier," was the advice of the chief to those to whom speed had become almost as a mania. "It seems to me that nearly every auto driver must have started late, and they are forever trying to catch up. Perhaps if they would start a little earlier there would be no need of this rush. If more notice is not taken of the law regulating the speed limit, a number of auto drivers will be given an introduction to Judge Fildes."

SUNDAY TRAIN WILL NOT BE PUT ON YET

Railroad Cannot Install Train to Kohshongong Until June 13.

In accordance with the ruling of the State Railway Rate Commission, which makes it necessary for the road to give notice forty days in advance of any change in the time of trains or of the installation of any new trains, the North-Western Railroad has been compelled to postpone until Sunday, June 12, the new train to Fond du Lac which was to have been put on Sunday, May 23. This will undoubtedly be somewhat of a disappointment to commuters who had intended to make use of the train during the early part of June or the latter part of May. This is the train for which residents of Jamesville who had cottages at Lake Kohshongong positioned.

TWO SPECIAL PERMITS TO MARRY WERE ISSUED TODAY

Out-of-Town Couples Given Permission to Marry Without The Usual Formalities.

Two special permits to marry were issued today by County Clerk H. W. Lee to Oliver S. H. Chatfield and Lulu Mae Chatfield, both of West Allis, Wis., and Joseph A. BASKETBALL FIVES WILL HOLD BANQUET

Tigers, Winning Team, Will Be Guests of Honor—Fine Program Will Be Given.

The boys of the Intermediate class at the Y. M. C. A. are planning a fitting tribute to the series of championship basketball games, a banquet, to be given at the Y. M. C. A. next Tuesday. The five losing teams, the Cubs, Sox, Giants, Naps, and Pirates will give a six-course dinner at which the Tigers, the winning five, will be the guests of honor. The series of contests just past were closely fought and at times the outcome was an uncertainty, but the Tigers were in the end the winners. After the banquet a number of toasts appropriate to the occasion will be given by members of the various teams. The program which has been arranged, is as follows:

"The Intermediate Class"..... Francis Green
"Perseverance"..... Rammet Murphy
"The Game"..... Glenn Robertson
"Class Prophecy"..... Frank Robertson
"The Banquet"..... Bridge Merrill
"The Losing Teams"..... Vorne Fildes
"The Victors"..... Philip Korst

PELTED WITH RICE AT CLINTON DEPOT

Devoted Friends of Mr. and Mrs. Burns Brewer Surprised Them at End of Their Automobile Trip.

Following the wedding ceremony and the elaborate supper which was served at small tables decorated with roses and lighted with candles at the home of Mr. and Mrs. Peter J. Mount last evening, Mr. and Mrs. Burns Brewer passed through a shower of confetti and boarded a touring car, which with a pink slipper dangling from the rear spring, was soon speeding toward Clinton, Wis.

The 6:25 C. & N. W. southbound vestibule carried half a score of the guests towards the same destination and as this chance to be the train on which the couple had their reservations for Chicago, the pilgrims were delighted to find them waiting unconcernedly on the depot platform. There followed another shower of rice at the door of the parlor car. The devoted friends who made up this party were: Mr. and Mrs. Arthur Granger, Mrs. Thomas Kling, the Misses Amy Whitton, Louise Morill, Charlotte Mount, and Marguerite Samuels, and the Messrs. John Shorer, Stanley Woodruff, William McNeil, and Ralph Van Cleave. A Virginia reel in front of the Clinton's bank and other little outbursts of enthusiasm taxed the tolerance of the Clintonites until the next train for Jamesville arrived at nine o'clock.

Mr. and Mrs. Brewer will remain several days at Chicago before departing for Long Beach, Cal. They will be welcomed at their final destination by Mr. and Mrs. L. C. Brewer, parents of the groom, who are soon to return to Jamesville. The out-of-town guests at the wedding were: Mr. M. Harper, M. J. Harper, and Thomas J. Harper of Magnolia, Mrs. Jessie Spellman King of Milwaukee, Mrs. Eloise Nowlan Holts of the Isle of Pines, Miss Marguerite Samuels of Burlington, and Mr. and Mrs. Andrew J. Mount of Chicago.

Prof. Rahr III: Superintendent H. C. Rahr took charge of Professor Rahr's classes at the high school this morning on account of the illness of the professor.

Will Illuminate Garden: The members of the West Side fire station are making preparations for the coming of the delegates to the state convention of the Odd Fellows, by putting up a string of twenty thirty-two candle power lights across their flower garden. The cold weather has somewhat prevented the growth of the plants and vines this year, but it is hoped that by the time of the convention the flowers will be out enough to make a good showing. The lights will be used all the summer and take the place of the string of four which they had last year.

Went to Evansville: District Attorney Fisher went to Evansville this afternoon to investigate another case of a "blind pig" being run in that temperance city.

Seeing Father: Ex-Sheriff Fisher has been in Chicago for the past two days seeking a recent husband and father who deserted a wife and eighteen months' old child here.

FATHER SHOTS HUSBAND OF 14-YEAR-OLD GIRL.
 LITTLE MRS. IRVING W. BECK, HER HUSBAND, IRVING W. BECK, AT LOWER LEFT, AND HER FATHER, ALBERT H. WILLARD, AT LOWER RIGHT.

Washington, D. C.—One of the saddest incidents of recent police annals is the shooting of Irving W. Beck by Albert H. Willard. The trouble arose over the marriage of Mr. Beck, who is a man of mature years, to the 14-year-old daughter of Albert Willard. The tragedy occurred in the Beck store some time ago, and resulted in the almost instant death of Mr. Beck.

Three weeks ago the two were married with the understanding that the girl was to remain in her father's home until such time as he saw fit to let her live with her husband. Neither Mr. Beck nor his young wife seemed to have felt this was a fair arrangement. She would not allow her parents to know where she was, knowing they would seek her out and attempt to bring her back. This so exasperated the father that he went to the Beck store and, after some words, and while Beck was weighing out some groceries for a boy, deliberately shot him three times, according to the testimony taken at the coroner's inquest. Another witness stated that Mr. Willard said as Beck fell: "If he is dead I am the happiest man in the world; if he lives I am the most unhappy."

Coroner Nesbit has returned a verdict holding Willard responsible for the crime, and the trial will excite unusual interest, for the father will undoubtedly rely upon the unwritten law for his defense.

Great crowds gathered at the in-

quest to get a glimpse of the little widow, who has excited the utmost sympathy of all Washington. The child wife was dressed in white lace and green tulle, when she appeared at the inquest. She occupied a seat beside her father while her father sat at the table with his counsel, T. C. Taylor, Assistant United States Attorney Charles H. Turner was present, with Detective McNamara, to look after the interests of the prosecution, and when the hearing was concluded they took the statements of several witnesses.

On her way from the morgue Dorothy Beck stopped long enough to recognize her father, but showed no emotion. During the progress of the inquest it was shown by witnesses that Mr. Willard had committed the crime, and fired three shots, that his victim had been taken to the Casualty hospital in a dying condition and that he had died in the hospital.

The shooting of Beck did not come as a complete surprise to persons who were familiar with the marriage of the child and the grocer and who knew of the subsequent trouble between the husband and the parents of his child wife. To be told that he could communicate with his daughter only by addressing letters to her at P. O. box 174 was more than he could stand, Willard says. Immediately after Beck gave him this message he went to a store in D street and paid for the revolver with which he later did the shooting.

Mr. and Mrs. Willard went to Beck's store, at Second and N street, and begged that their daughter be returned to them, but the grocer declared his wife was happy and did not want to leave him. The next morning Willard left home about 6 o'clock and called to see his son-in-law, but left the house without learning anything additional. Later in the morning Mrs. Willard called at the store. She had received this note from her daughter.

"I'm telling you that you wanted to know my address, but I think it best for you not to know, as daddy would find it out, and he would be up here raising the devil. You would be sure to tell him. I am in a nice, respectable place, and do not have anyone to quarrel with me, so don't worry. You can send my clothes and other things if you wish, but if you don't I have plenty of money and can buy more; but I would like to have my other things. Don't worry, please. From your loving daughter, DOROTHY."

Tuesday Mrs. Willard received a letter from her daughter, in which the girl said:

"Dear Mamma—I was thinking that you might be worried, and I will write you a few lines to let you know that I am all right. I have a whole room to my self and the use of the parlor, and can get my meals."

"I would have come home, but Irving would not come with me after the way daddy abused him in the store. I would not leave you but I was afraid to come home. If I send after my clothes will you let me have them? If you want to write to me address the letters to Box 174, main post office, for I. W. Beck, and I will get them. Do not be worried, as I am perfectly safe in a good place."

"So good-by. From your loving daughter, DOROTHY."

Two Excellent "Bulls."
 An Irish clergyman is credited with having concluded a powerful oration in this fashion: "My brethren, let not this world rob you of a peace which it can neither give nor take away." Which is coupled with the remark of a fellow country colleague who in reasoning with a woman who had lost her faith in Christianity told her: "Well, you will go to hell, you know; and I shall be very sorry, indeed, to see you there!"

Texas Pecan Orchards.
 Texas is the greatest pecan-growing section in the world. Pecans are a valuable food product. Cultivation of pecans is a profitable industry, the trees in many orchards being valued at \$100 each. Experts declare the crop will pay more in proportion to the care given and money invested than any other crop. There are pecan orchards in Texas more than 1,000 acres in extent, and even larger ones are to be created. —Dallas News.

Use Soap as Economy.
 Soap in its modern form seems rather to be an evolution of economy and commercial convenience than an evidence of a great accession to cleanliness. The rich today in their homes use unguents, oils, meals and bath powders in preference to it. A bath is not in this age as picturesque as the old method, when a salvo poured liquid soap over her mistress from a costly jar before the fairer stepped down into the water.

Eccentric and Irreverent.
 Because she kept 12 cats named after the 12 apostles, including one drab-colored favorite named St. Judas, an effort is being made to have the will of the late Miss Anna A. Burnett of Hill-ton, N. J., who left an estate valued at \$300,000, set aside on the ground that she was incompetent. Her nearest relatives, who are cousins, have begun the action. One-third of the estate was left to charity and the remainder to relatives and friends.

Reptiles in Winter.
 Frogs and toads can stand freezing and thawing a few times, though the experience seems to be "wearing," as most of them succumb after repeated trials. Just how snakes pass the winter we do not know. Two or three specimens of the common striped snake which we have dug from stone heaps in the winter appeared to be frozen stiff, though a natural repugnance to the reptiles prevented close observation. —Exchange.

The BLACK BAG

"In this way, I'm called away on urgent business—imperative business. I must go at once. My daughter is with me—my daughter! Think of my embarrassment. I cannot leave her here alone, nor can I permit her to go home unprotected."

Calendar paused in anxiety. "That's easily remedied then," suggested Kirkwood.

"How?"

"Put her in a cab at the door."

"No. The devil! I couldn't think of it. You won't understand."

"I do not understand," amended the younger man politely.

Calendar compressed his lips nervously. It was plain that the man was quivering with impatience and half mad with excitement. He held quiet only long enough to regain his self control and take counsel with his pride.

"It is impossible, Mr. Kirkwood, I must ask you to be generous and believe me."

"Very well. For the sake of the argument I do believe you, Mr. Calendar."

Swiftly, stammering in his haste: "I can't let Dorothy accompany me to the door," declared Calendar. "She'll throw myself upon your mercy!"

"What, again?"

"The truth—the truth is, if you will have it, that I am in danger of arrest the moment I leave here. If my daughter is with me she will have to endure the shame and humiliation!"

"Then why place her in such a position?" Kirkwood demanded sharply.

Calendar's eyes burned, lucid and clear with resentment. Offended, he offered to rise and go, but changed his mind and sat tight in hope.

"I beg of you, sir."

"One moment, Mr. Calendar."

Calendar's eyes were turned to the door. He was waiting for the girl to appear. In the process thereof his eyes sought her, perturbed. Their glances clashed. She looked away hastily, crimson to her temples.

"Instantly the conflict between curiosity and caution, inclination and distrust, was at an end. With sudden compliance the young man rose."

"I shall be most happy to be of service to your daughter, Mr. Calendar," he said, placing the emphasis with becoming gravity. And then, the fat adventurer leading the way, Kirkwood strode across the room, wondering somewhat at himself, if the whole truth is to be disclosed.

AUSTRIAN HEIR TO THRONE FOUND.

Archduke Johann Salvator of Austria and Emperor Francis Joseph, his cousin, whom he so closely resembles.

Cleveland, Ohio.—Upon

Health and Beauty Helps

BY MRS. MAE MARY VYN.

A. C. M.: My dear girl, never use a depilatory or "hair remover." A chemical that is powerful enough to kill hair is likely to prove harmful to the skin. None of them has permanent effect. They remove the hair for only a few weeks at the most, and it comes back thicker and blacker than ever.

Eather V.: I was glad to read that you are recommending my ammonia complexion jelly recipe to your friends. I do not understand why your cousin was unable to get ammonia from her druggist, for it is almost as common as camphor. I never advise the use of anything that is difficult to obtain if your druggist should be out of any ingredient he can easily procure it from his wholesaler if he wants to. The shampoo recipe you ask for consists only of 1 teaspoonful of canthox dissolved in a cup of hot water. It lathers freely and will thoroughly cleanse the scalp. By shampooing the hair with canthox every 2 or 3 weeks it will remain soft and fluffy.

Mrs. R. L.: The rough and itching skin of your baby indicates that it is suffering from eczema. Any form of eczema or simple skin disease in child or adult is relieved by pouring on the affected surface of the skin a small quantity of a lotion made by mixing 4 ounces of lard with 4 tablespoonfuls of alcohol and 1/2 pint of water. Repeat the application several times each day until the irritation disappears.

Amie G. and Belle R.: It is right and proper that you should desire to have bright, clear and sparkling eyes, for they are a wonderful charm in woman. You can make a good eye tonic by dissolving an ounce of erysine in a pint of water. One or two drops in each eye will promptly relieve your eyes of dullness, redness, or inflammation. It will strengthen your sight and is used regularly by many who wear glasses. It does not smart or burn.

Helen N.: You are not the only girl with a sallow complexion and dry skin who cannot find a face powder that pleases her. That you need not despair. There are other aids to beauty more satisfactory than face powder and the use of waxes is becoming more popular everywhere, notwithstanding their high price. There is a recipe for a wax that you can make at home and it will cost much less than any manufactured brand. Dissolve 4 ounces of spermaceti in a half pint of hot water and 2 teaspoonfuls of glycerine. This will make a

complexion is another that whitens and softens the skin without the use of powder, and it is a beauty to remove pimples, tan and freckles.

"Polly Prim": Don't spoil your complexion by using a depilatory. I welcome the opportunity to repeat recipes as often as they are called for. I know from experience how easy it is to lose a new complexion. Ammonia complexion cream jelly is made by mixing 2 tea spoonfuls of glycerine, 1 ounce of ammonia and 1/2 pint of water. Let it stand. This can be used for every purpose for which a cold cream is used. For smoothing, apply with the fingers, rub with the finger tips in a circular motion, and the dirt and grime will promptly roll off the skin. It thoroughly cleanses the pores, clears the skin, removes blackheads, tan and freckles and makes large pores small. It contains no fat or oils that will cause superfluous hair to grow, but it keeps the skin moist, smooth and pliable.

Miss J.: Neither you nor your husband will be embarrassed by dandruff settling on your shoulders if you follow these directions: Brush the hair and apply a quinine hair tonic made by dissolving 1 ounce of quinine in 1/2 pint of alcohol and 1/2 pint of cold water. Apply once a week. This tonic removes dandruff, stops falling hair and keeps the scalp in a healthy condition, promoting the growth of hair and making it glossy and abundant.

Kate R.: Do not be alarmed because you have become fleshy. Most of us gain weight in winter. To make a never-failing flesh reducer, get from your druggist 4 ounces of paraffin and dissolve it in a pint of hot water. Take 1 tablespoonful 3 times a day just before meals. Avoid early every day and take as much outdoor exercise as you can.

Alex J.: If your blood were in healthy condition you would not be afflicted with the ugly pimples and sallow skin you complain of, and it is not likely that any salves or lotions applied externally will give you relief. You must purify your blood and arouse your liver to normal action. I feel sure that this recipe will benefit you. Dissolve 1 ounce of potassium iodide in 1/2 pint of water. Take 1 tablespoonful before each meal and upon retiring. This recipe will give you a full quart of good blood tonic and liver remedy that has cured many cases of pimples, blotches, scurfiness and other eruptions of the skin. It is an excellent spring medicine for it increases the appetite and tends to strengthen and build you up.

I. C. R.: A brisk walk in the fresh air will do a common headache lots of good.

some for large amounts are anticipated. It is quite probable that some of the outside matches will be made by Capt. Travis, he to shoot with a pistol and his opponent to shoot with a shot gun. The veteran Travis has already had one match of this kind, against the champion shooter of Pennsylvania, and from this daily exhibition it is very apparent that added years have wrought no diminution of his ability.

The Duval Case.—The examination of Dr. Duval has not taken place as yet, because the analysis of the stomach has not been completed. We presume as the Grand Jury is now in session the case will go directly before it.

The young emperor of China as an experiment recently smoked a pipe of opium. His mother learned of it, and discovered that the drug was smuggled to him by one of the chief eunuchs. She ordered him to be punished and caused a new proclamation against opium to be sent through the empire.

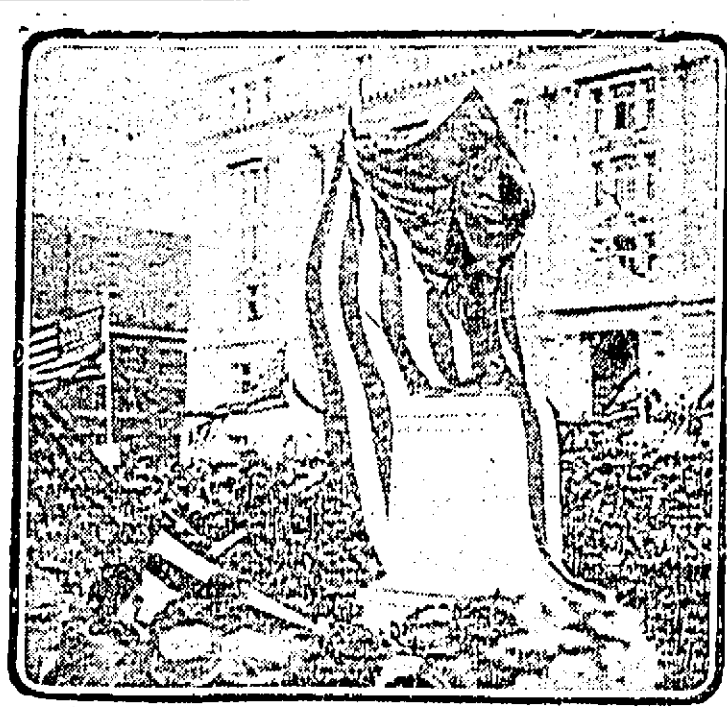

Imitations Close to Nature.—Imitation soap, looking exactly like the real article, but made of clay, grease, scent and a little pink dye, is of Chinese origin, and the native clerics in China and India carry their pencils behind their ears in imitation of their Caucasian bosses, yet the pencils contain no lead, since they are carried only for ornament, the brush being used for all actual work.

Washington, D. C.—Southern hospitality is at its best in the home of Congressman T. M. Bell of Georgia. His wife is a fascinating hostess and is a great favorite in congressional circles.

Fresh Air a Mighty Force.
Fresh air clears the clogged brain, puts new strength into the muscles, a new life into the blood, a new lightness into the step; it brushes away the petty ills that bother every day life and helps one to bear with greater patience, it strengthens the shoulders for the burdens that are laid upon them; it makes the hardest work lighter and the hardest day brighter.

Good Chance to Be Candid.
An honest country gentleman had to a painter: "I want you to come to my house, for I have just bought a picture by Rubens. It is a rare one. That fool, Dauber, says it's a copy. A copy! If any man living dares to say it's a copy, I'll break every bone in his skin. Now, I want you to see it and give me your candid opinion."

The real test is in the baking.

Other Baking Powders may make broad claims, but when it comes to the production of real delicious biscuits, cakes and pastry

CALUMET

BAKING POWDER

proves its real worth. This is because of its much greater leavening power and the strict purity of its ingredients. It costs only a trifle more than the cheap and big brands and much less than the Trust Baking Powders.

Danderine

EVERYBODY CAN HAVE BEAUTIFUL HAIR NOW, and they don't have to wait weeks and months for results either. You will notice marked improvement after the very first application.

Danderine is quickly and thoroughly absorbed by the scalp and the hair soon shows the effects of its wonderfully exfoliating and life-producing qualities. It is pleasant and easy to use—simply apply it to the scalp and hair once a day until the hair begins to grow, then two or three times a week till desired results are obtained.

A lady from California writes in substance as follows: "I have been using your wonderful hair tonic for several months and I am now pleased to say that I have more hair than I have ever had before. The hair is growing so fast that I have to cut it every two weeks." Another from New Jersey writes: "After using six bottles of Danderine I am happy to say that I have no more a head of hair as I have in New Jersey."

This Great Hair-Growing Remedy can now be had at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

Free! To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends us a letter to the Danderine Co., Chicago, with their name and address and 10c in silver or stamps to pay postage.

FORTY YEARS AGO

Janesville Daily Gazette, May 20, 1869.—Pigeon Shooting.—Today a series of matches will be shot at the Janesville Driving Park, which, from the number of spectators expected to participate in them, and the character of prizes offered, excites an unusual degree of interest among the lovers of shooting in our vicinity. Capt. A. H. Bogardus of Elkhart, Ind., who performed on the 16th inst., the most wonderful feat of high shooting on record, killing 500 in 8 hours and 48 minutes, and during the match score-

ing seventy-five birds in succession without a miss. James Ward, the champion shot of Canada, and Abe Kleiman, famous as the "duck shooter of the Calumet," are all here and will no doubt display some of their wonderful skill for the emulation of the sportsmen of Janesville. For the main matches, pre-arranged mainly by Capt. John Travis, there are several prizes in gold, one of \$200, one of \$200, and a third of \$200. There are, however, at least one thousand extra birds for outside matches, of which
